**PEACEBUILDING**

Many of our projects are designed to build peace. Some projects do this by responding to crisis, others by healing fractured relationships in communities.

**THEOLOGY**

We have an emphasis on teaching God's Word and it is a key priority across many of our projects. It is foundational to our work and informs our actions.

**GRASSROOTS**

We prioritize the poor across all our projects, people from the grassroots without money or opportunity. This is 'reaching the least of these'.
